

## L-TT / H-TT

### Low-Profile Semi-Automatic

The H-TT and L-TT turntables are the ideal solution for low volume pallet wrapping operations.

The operator can easily set the turntable rotating speed to rapidly wrap any type of pallet.

The unique PRO-GLIDE support casters are robust and require very little maintenance.

- Structural and formed steel frame
- Forklift portable
- Very low maintenance turntable drive
- Easy access to components
- 1/2 HP turntable drive motor
- Heavy duty turntable chain drive
- Heavy duty turntable support casters
- Turntable soft start/stop
- Rugged all steel footswitch
